

Islamic Studies, required of all Muslim students, helps them gain a better appreciation of Islam, and helps them to have a good understanding of the Islamic concepts and values and the ways to apply them. Students are expected to recite the Qur'an, study prophet Muhammad's (PBUH) biography, and study the main topics

Islamic Culture is required of all non-Muslim students, it helps students attain a better understanding of the contributions of Islam to the world while providing an introduction to the history of the Islamic world from the birth of the Prophet Muhammad (PBUH). It will focus on the origins and the tenets of Islam, then turn to the cultures and societies that emerged from the interactions of Islam and the Muslim community.

IPS
Grade 10
2018-2019

English 10: Composition and Literature covers a variety of prose and poetry by selected international writers. Students are expected to be keen observers of fictional characters to help them understand their own lives. They are expected to read widely and deeply, while writing and speaking to share their analysis of 'said' information. and they need to report on a novel each month. The course has a writing component with an emphasis on clear analysis.

Arabic is offered at the A level (first language) and at the B level (language acquisition.). As per Ministry of Education expectations, it is compulsory for all students to attend Arabic classes. Topics: oral communication, reading, and writing (reasoning and critical thinking, use of words and language structures, media communication skills).

History 10, 1750-1918 is our second World History class covering the period from the Early Modern Era to the end of the First World War/Russian Revolution. The course is designed specifically to prepare students for the IB Diploma Programme in 11th Grade.

Integrated Science II is a college preparatory course with a multidisciplinary approach that describes our natural and physical world. The curriculum will introduce students to: cellular biology, chemical stoichiometry, and finally kinematics & forces.

Mathematics (Geometry/Algebra II) enables students to broaden their understanding of relationships and extend their problem-solving and algebraic skills through investigation and abstract reasoning. Students will explore quadratic relations and their applications; solve and apply linear systems; verify properties of geometric figures using analytic geometry; and investigate the trigonometry of right and acute triangles. Students will reason mathematically and communicate their thinking as they solve multi-step problems.

Electives

Art 9/10 is designed for students pursuing art as an elective for first-time exposure in the high school years while emphasizing technique. The class promotes visual arts literacy in the following four interrelated content areas: Artistic Perception, Creative Art Process, Art History, and Art Criticism.

French is offered at the B level (second language) from B1 (first year on instruction) through B8 (8th year of instruction) encompassing beginners, intermediate, and advanced. New students take a placement examination during the first few days of classes to ensure appropriate placement.

Business Studies 9 OR 10 introduces students to concepts that may be applied to various disciplines, including scarcity, wants, needs, resources, utility, supply, and demand. Students gain an understanding of macroeconomic issues such as inflation, unemployment, gross domestic product, gross national product and how these variables are used to measure a nation's economic performance. Students work on projects throughout the course whereby they apply what they have learned to present-day economies of different nations

Physical Education & Health offers students a range of individual and team sports including swimming, volleyball, tennis, softball, and gymnastics. There is an emphasis on establishing a good fitness base and developing skills that will be carried over into adult life.

Approaches to Learning 9/10 addresses time management as an essential skill for academic success and aims to develop and focus these skills to pave the way for a successful IB career in grades 11 and 12. Guidance also incorporate SAT preparation, and college and career counseling sessions

KSA Social Studies helps students gain an appreciation of our host country and its impact in world religion, history, and international relations.
